

# Developing the Young Workforce (DYW)

Alva Academy

At Alva Academy we offer a range of opportunities to enable our young people to participate in work based and work linked learning to develop key skills for the future. As a result, our young people are better prepared for the world of work and can make realistic and informed choices about their next steps.

To enhance our provision Alva Academy works with a range of partners who support DYW in a variety of contexts:

**Mock Interviews/CV building**

**Guest Speakers**

**Career Events**

**Work Placement**

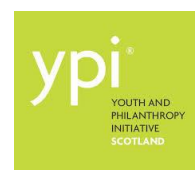

**Staff Professional Learning**

**Volunteering  
Opportunities**

## We are grateful to a range of partners who work with our young people & staff

Here is a sample of our external partners who have engaged with us in Session 2019/2020. Click on the 'Active Partnerships' link to see more about how these partners support the engagement of DYW in our school.

In addition to partnerships developed by Alva Academy, the school is part of the Forth Valley DYW Regional Group designed to bridge the link between education employers. The group has engaged several partners to work with our school, which are now sustainable in our curriculum.
