

Support in Clacks

December 2021

COVID advice can be found at:

www.nhsinform.scot

How are we providing support?

The Council is working closely with Scottish Government, Public Health and our partners across Forth Valley to monitor and respond to the national situation. In particular, we are focussed on helping to support the most vulnerable in our communities.

We have introduced a **Helpline** to assist those most at risk in our communities during the outbreak, so that these vulnerable residents can receive extra help and support.

Call **01259 452275** or email communitysupport@clacks.gov.uk with any concerns you may have and we will signpost you to suitable support available in the community.

CTSI is a 'single door' access point for a wide range of support and services in Clackmannanshire. Further information can be found at <https://ctsi.org.uk>

01259 213840

What financial support is available if my child has to self-isolate?

The £500 Self-Isolation Support Grant has been extended to include parents on low incomes whose children are asked to self-isolate.

Information on the eligibility criteria for this grant can be found at: www.clacks.gov.uk/coronavirus/sisgrantcv/

or by calling our **Helpline** on **01259 452275** to apply.
